

# LOLLIPOPS

Natálie Moravcová  
Adéla Šimková  
Adam Horáček  
Jan Grygar  
Michal Rella

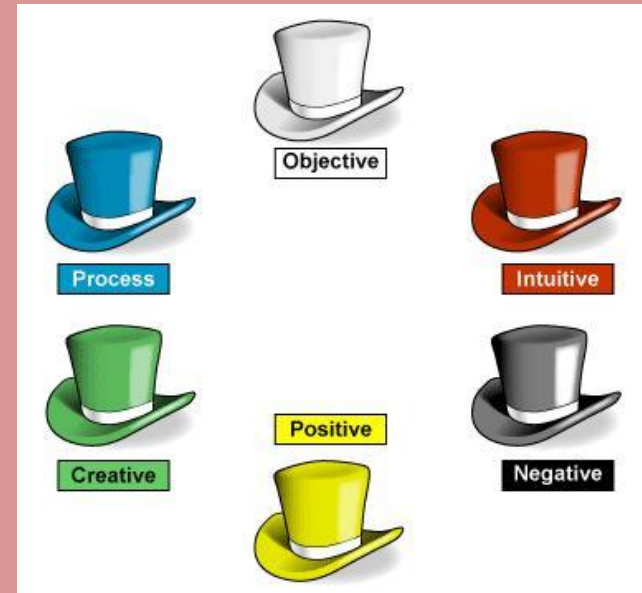

# IDEA

- We were on excursion at Flora Olomouc. We didn't have any idea of what we can do. But there we bought lollipops and on the way back in tram we were thinking about any products. And suddenly Naty said that we can do lollipops because they're sweet and all children love them. And so we decided to make lollipops.

# BRAINSTORMING

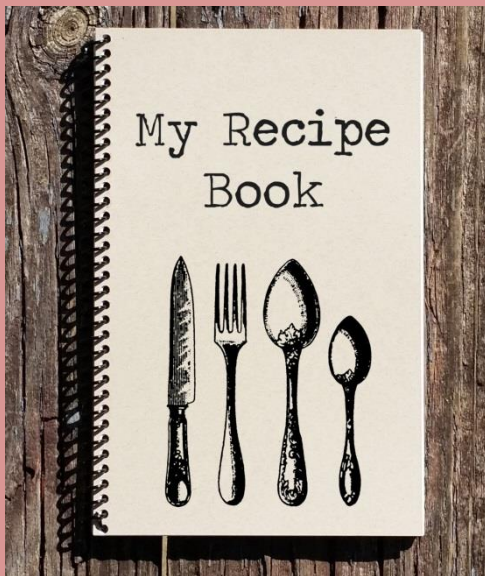

- We were thinking about our idea and we had to decide what each person can do for our success.

# PLACE and RAW MATERIALS

We make lollipops at our houses in our kitchens.

We need just only things which we can usually buy at shop (sugar, dye and a few more things).

# TEAM and PEOPLE

- We haven't got split functions. But usually Naty and Ady are the leaders of activities. Because boys are impatient and distracted. But despite all the misunderstandings we are good team.

# SALE

- We sell lollipops to children at our school.

# RESULT

- We didn't do the accounting yet. We hope that sales will increase and we can make some money.
- At the moment we must improve sales.

# MEANING

- We always wanted to start a business in the future. This is a great opportunity to try everything and learn.
- It is good to learn to work in team.
- We learn a lot about business plans and about the courage to start a firm.

Thank you for watching
